### SUMMARY

Junior PHP Developer (Laravel) with 1+ year of comprehensive technical experience building scalable web applications using Laravel, MySQL, and RESTful APIs. Delivered 3+ production applications with 30% performance improvement through database optimization. Strong foundation in MVC architecture, authentication systems, and Agile collaboration. Experienced in backend development, project coordination, and research.

### PROFESSIONAL SKILLS

**Languages & Frameworks:** PHP (OOP), Laravel (Eloquent, Sanctum), JavaScript, HTML5, CSS3, Bootstrap, Tailwind CSS

**Database & Tools:** MySQL, Query Optimization, Git/GitHub, Composer, RESTful APIs, CRUD Operations, Agile/Scrum

**Core Competencies:** MVC Architecture, Authentication & Authorization, Role-Based Access Control, API Development

### PROFESSIONAL EXPERIENCE

#### Junior Software Developer | AMIZ (PVT) LTD, Karachi

Aug 2024 - Present

- Develop and maintain Laravel-based web applications using PHP 8 and MySQL for 500+ active users
- Build secure RESTful APIs with token-based authentication using Laravel Sanctum
- Optimize database queries achieving 30% performance improvement through indexing and normalization
- Implement role-based access control (RBAC) for Admin, Manager, and Staff user roles
- Collaborate in Agile sprints, participate in code reviews, and maintain Git-based workflows
- Successfully delivered 3+ production-ready applications with third-party API integrations

#### PHP Developer Intern | AMIZ (PVT) LTD, Karachi

Jun 2024 – Aug 2024

- Assisted in developing application features and resolved 20+ bugs in existing codebase
- Learned Laravel framework fundamentals, PHP best practices, and MySQL database operations
- Contributed to 5+ sprint deliverables and participated in QA testing processes

### PROJECTS

#### E-Commerce Product Management System | Laravel 9, MySQL, Bootstrap 5, Laravel Sanctum

- Built admin dashboard for managing products, categories, inventory, and orders with advanced search and filtering
- Developed RESTful API with pagination and implemented three-tier RBAC system
- Reduced product search query time by 40% through database indexing

#### AI-Based Skin Disease Diagnosis System (FYP) | Laravel 10, MySQL, Python ML Integration

- Developed full-stack application integrating ML model with JWT-based authentication
- Built secure image upload system and RESTful API for real-time prediction workflow

#### Medicine Recommendation System | Laravel 9, MySQL, RESTful API

- Designed backend API processing 10,000+ medical records with optimized SQL queries
- Normalized database to 3NF reducing data redundancy by 35%

#### Online Appointment Booking System | Laravel 10, MySQL, Tailwind CSS, Stripe API

- Created real-time scheduling system with dynamic availability checking and conflict detection
- Integrated Stripe payment gateway and automated email notifications using Laravel Mail and queues
- Implemented cancellation/rescheduling workflow with Laravel Task Scheduler

### EDUCATION

#### Bachelor of Science in Computer Science

2022 – 2025

- University of Sindh, Jamshoro | CGPA: 3.4/4.0

### CERTIFICATIONS & ACHIEVEMENTS

- PHP (Basic) & SQL (Intermediate) Certificates – HackerRank (2024)
- Top 10% of Computer Science Cohort – University of Sindh (2024)
- Industry Liaison Coordinator – 12+ collaborative projects (2023-2024)
- Young Leader Program – Aspire Institute, Harvard-affiliated (2023)
